Final year	2.005 % p.a.

This information was provided to you upon order submission on 13.11.2025. The information is based on the current buy price or the selected limit or stop price. The actual execution price may differ. Product costs are included in the current price and not payable separately by the investor. Ongoing costs as well as entry and exit costs are disclosed by the issuer per unit and the information is reflected by Scalable Capital. Assuming a holding period of 5 years, the total costs would amount to €2.24 (1.202 % p.a.). **Financial transaction taxes** may apply. Scalable Capital may receive up to €35.00 (investment and leveraged products) or up to 2% (interest rate products) in third party payments in connection with this transaction. Scalable Capital may make payments to third parties that relate to both this transaction and overall assets. The actual payments received or granted are disclosed retrospectively. For further information, please refer to the client documentation.
